

## TECHNICAL DATA SHEET

### CHARACTERISTICS AND APPLICATIONS

QUICK AND EASY CLEANING OF DUCTS, VENTILATION SYSTEMS AND INTERIOR PARTS OF VEHICLES IN GENERAL. Unipega Air Conditioning Cleaner was developed for the quick and easy cleaning of ducts, ventilation systems and internal parts of vehicles in general. It is also recommended for cleaning wall-mounted or split air conditioning units. With the most modern cleaning concept, the product has a special valve that locks after activation and automatically releases the product, effectively cleaning the air conditioning unit and leaving a pleasant fragrance. Recommended for the interior of cars, buses, trucks, agricultural machinery or any other environment that requires cleaning the air conditioning system.

### INSTRUCTIONS FOR USE AND HANDLING

**HOW TO USE: HOW TO USE AUTOMOTIVES:** Only start application if you have understood all the steps, or seek a specialized professional.

1. Before applying the product, change the pollen filter (if the vehicle has one). 2. Remove the floor mats if they are made of rubber. 3. Remove objects from inside the vehicle, such as cell phones, radios and other portable electronic devices, including the glove compartment, consoles and storage compartments on the sides of the doors. 4. Leave all windows (front and rear) with an opening of between 5 and 10 cm. Important: never start applying the product with the windows closed, due to the risk of gas pressurization inside the vehicle. 5. Start the vehicle. 6. With the vehicle running (idling), set the air conditioning system to recirculation mode. 7. Turn on the air conditioning in cold mode. Set it to maximum power. 8. Open all air vents. 9. Shake the bottle, press the valve until it locks and place it on the passenger floor. 10. Get out of the car and close the door. Keep a safe distance from the vehicle (at least 6 meters). 11. Wait until the application is complete (approximately 2 minutes) and another 15 minutes before getting into the vehicle. Turn off the vehicle, open all windows and doors and wait another 15 minutes before using the vehicle. **HOW TO USE WALL OR SPLIT AIR CONDITIONING:** 1. Remove the filters and wash with soap and water. 2. Replace the filter. 3. Turn on the air conditioning in the ventilation mode and at a temperature of 24°C. 4. Shake the bottle and press the valve until it locks. 5. Direct the spray towards the front of the air conditioning. It can also be applied to the filter. 6. Continue the process until the product no longer produces any mist. 7. Leave the air conditioning on for another thirty minutes. Then turn it off and the cleaning is complete.

### ADVANTAGES

- Cleans the air conditioning and ventilation system
- Application in the form of mist
- Does not damage electrical parts
- Does not require specialized labor
- Quick release in the vehicle
- Effective in eliminating odors

### FRAGRANCES

- Air Clean
- New Car
- Lavender
- Summer

### LIMITATIONS

Incompatible with strong oxidizing agents. Not suitable for residential, commercial, hospital air conditioning systems, etc.

### STORAGE

The product must be kept in its original packaging and stored in a cool place at a temperature of 5 to 30°C, away from direct sunlight and heat sources, with the packaging always facing upwards. Do not expose to sunlight or temperatures above 50°C. Avoid keeping the product inside vehicles. Keep out of reach of children and pets. Shelf life (from date of manufacture): 24 months.

### LIMITED WARRANTY INFORMATION

The information contained in this Technical Data Sheet is based on our knowledge and experience up to the present date. Due to our product being able to be used in a wide range of applications and under different working conditions, we recommend that the customer conducts their own tests to approve the product for safety and intended use. We cannot assume responsibility for the results obtained by others whose methods are beyond our control. Therefore, it is the sole responsibility of the user to determine the suitability of the product for the desired purpose and to adopt any precautions that may be advisable to protect property and individuals against any hazards that may be involved in its handling and application. Our warranty applies within the context of legal regulations and provisions, professional standards in force, and in accordance with the determinations established in our general sales conditions. The detailed information in this document is provided for indicative purposes only. The same applies to any information provided verbally, by telephone, or in writing to any potential or existing customer. **For safety, handling, storage, and disposal information, please consult the respective Material Safety Data Sheet (MSDS).**
