

TECHNICAL DATA SHEET

CHARACTERISTICS AND APPLICATIONS

The Gas for Blowtorch is a Butane/Propane gas refill indicated for use in a wide variety of blowtorch models. Colorless with a characteristic odor, it is 80% Butane and 20% Propane. It is indicated for various applications, such as small welding, repairing dents, camping (portable stoves) and small domestic repairs.

INSTRUCTIONS FOR USE AND HANDLING

HOW TO USE: To use this product, check the compatibility of the model with the can valve and follow the torch manufacturer's instructions exactly. Always use this refill with the nozzle facing down. Adapt the applicator to the torch inlet (only in the case of refillable torches).

PRECAUTIONS

Extremely flammable aerosol. Pressurized container: may rupture if heated. Causes skin irritation. May cause drowsiness or dizziness. Keep away from heat, sparks, open flames, hot surfaces. Do not smoke. Do not spray on open flames or other sources of ignition. Keep away from sunlight. Do not expose to temperatures above 50°C. Before using this or any other chemical product, ensure that you have read and understood the information contained in the Material Safety Data Sheet (MSDS). Observe the potential risks and follow all precautions, handling instructions, considerations and provisions mentioned in the MSDS and on the packaging.

STORAGE

The product must be kept in its original packaging and stored in a cool place at a temperature of 5 to 30°C, away from direct sunlight and heat sources, with the packaging always facing upwards. Do not expose to sunlight or temperatures above 50°C. Avoid keeping the product inside vehicles. Shelf life (from date of manufacture): 36 months.

LIMITED WARRANTY INFORMATION

The information contained in this Technical Data Sheet is based on our knowledge and experience up to the present date. Due to our product being able to be used in a wide range of applications and under different working conditions, we recommend that the customer conducts their own tests to approve the product for safety and intended use. We cannot assume responsibility for the results obtained by others whose methods are beyond our control. Therefore, it is the sole responsibility of the user to determine the suitability of the product for the desired purpose and to adopt any precautions that may be advisable to protect property and individuals against any hazards that may be involved in its handling and application. Our warranty applies within the context of legal regulations and provisions, professional standards in force, and in accordance with the determinations established in our general sales conditions. The detailed information in this document is provided for indicative purposes only. The same applies to any information provided verbally, by telephone, or in writing to any potential or existing customer. **For safety, handling, storage, and disposal information, please consult the respective Material Safety Data Sheet (MSDS).**
