

TECHNICAL DATA SHEET

CHARACTERISTICS AND APPLICATIONS

ANTI-CORROSION AND OXIDATION FOR VARIOUS APPLICATIONS. Unipega Spray Grease is formulated with a calcium base and paraffinic bases. It has excellent water resistance, good protection against corrosion, high resistance to oxidation and great mechanical stability. High lubrication and protection performance. Its spray form makes it even easier to apply. It can be applied to moving parts, avoiding downtime for maintenance. Ideal for maintaining the proper functioning of gears and motors, it protects the parts from their natural friction, improves the fit of pipes and connections. In industry: its use is recommended in simple bearings, roller bearings, flexible couplings, moving parts of machines and small gearboxes. In automobiles: its use is recommended for lubricating wheel hubs, splined joints, cardan shafts, locks and hood pins.

INSTRUCTIONS FOR USE AND HANDLING

HOW TO USE: Apply directly to the desired location using the extender.

ADVANTAGES

- Calcium-based
- Excellent water resistance
- Good corrosion protection
- High oxidation resistance
- High mechanical stability
- High lubrication and protection performance

STORAGE

The product must be kept in its original packaging and stored in a cool place at a temperature of 5 to 30°C, away from direct sunlight and heat sources, with the packaging always facing upwards. Do not expose to sunlight or temperatures above 50°C. Avoid keeping the product inside vehicles. Keep out of reach of children and pets. Shelf life (from date of manufacture): 36 months.

LIMITED WARRANTY INFORMATION

The information contained in this Technical Data Sheet is based on our knowledge and experience up to the present date. Due to our product being able to be used in a wide range of applications and under different working conditions, we recommend that the customer conducts their own tests to approve the product for safety and intended use. We cannot assume responsibility for the results obtained by others whose methods are beyond our control. Therefore, it is the sole responsibility of the user to determine the suitability of the product for the desired purpose and to adopt any precautions that may be advisable to protect property and individuals against any hazards that may be involved in its handling and application. Our warranty applies within the context of legal regulations and provisions, professional standards in force, and in accordance with the determinations established in our general sales conditions. The detailed information in this document is provided for indicative purposes only. The same applies to any information provided verbally, by telephone, or in writing to any potential or existing customer. **For safety, handling, storage, and disposal information, please consult the respective Material Safety Data Sheet (MSDS).**
