

SILICONE-FREE WELDING SPLASH AGENTS

TECHNICAL DATA SHEET

CHARACTERISTICS AND APPLICATIONS

PAINTABLE SURFACE PROTECTOR THAT PREVENTS WELDING SPLASH FROM ADHESIVE IN UNWANTED AREAS. Unipega Welding Spatter Protection is a surface protector that prevents welding spatter from adhering to unwanted areas, optimizing the welding and cleaning process. It protects the parts being welded, as well as the burner nozzle, without altering the mechanical properties of the welded material and preventing the formation of cracks in the weld. The product does not interfere with the adhesion of paint to the parts, should they need to be painted. Silicone-free. Recommended as a surface/burner nozzle protector against welding spatter. It can be applied to all types of welding, especially electrical welding and carbon steel welding.

INSTRUCTIONS FOR USE AND HANDLING

HOW TO USE: Apply to the welding area and to areas where welding splashes should drain. It is only necessary to form a light oily layer. Weld as normal. Most of the splashes should run down to the floor. The few that remain on the sheet metal will come off with a little pressure, even when cold. Before painting, clean the part with Spray Degreaser..

ADVANTAGES

- ·Safe to use
- Non-flammable
- Can be used in all types of welding
- Since it does not contain CFCs, it does not cause damage to the ozone

STORAGE

The product must be kept in its original packaging and stored in a cool place at a temperature of 5 to 30°C, away from direct sunlight and heat sources, with the packaging always facing upwards. Do not expose to sunlight or temperatures above 50°C. Avoid keeping the product inside vehicles. Keep out of reach of children and pets. Shelf life (from date of manufacture): 36 months.

LIMITED WARRANTY INFORMATION

The information contained in this Technical Data Sheet is based on our knowledge and experience up to the present date. Due to our product being able to be used in a wide range of applications and under different working conditions, we recommend that the customer conducts their own tests to approve the product for safety and intended use. We cannot assume responsibility for the results obtained by others whose methods are beyond our control. Therefore, it is the sole responsibility of the user to determine the suitability of the product for the desired purpose and to adopt any precautions that may be advisable to protect property and individuals against any hazards that may be involved in its handling and application. Our warranty applies within the context of legal regulations and provisions, professional standards in force, and in accordance with the determinations established in our general sales conditions. The detailed information in this document is provided for indicative purposes only. The same applies to any information provided verbally, by telephone, or in writing to any potential or existing customer. For safety, handling, storage, and disposal information, please consult the respective Material Safety Data Sheet (MSDS).
