**HOW TO USE:** Apply directly to the desired location using the extender.

### BENEFITS

- Excellent resistance to humidity
- Good protection against oxidation
- High lubrication power

### LIMITATIONS

It is not recommended for parts that require high effort to work with.

### STORAGE

The product must be kept in its original packaging and stored in a cool place at a temperature of 5 to 30°C, protected from direct sunlight and away from heat sources, with the packaging always facing upwards. Do not expose to the sun and temperatures above 50°C. Avoid keeping the product inside vehicles. Keep out of reach of children and pets. Validity (from the date of manufacture): 36 months.

### LIMITED WARRANTY INFORMATION

The information contained in this Technical Data Sheet is based on our knowledge and experience up to the present date. Due to our product being able to be used in a wide range of applications and under different working conditions, we recommend that the customer conducts their own tests to approve the product for safety and intended use. We cannot assume responsibility for the results obtained by others whose methods are beyond our control. Therefore, it is the sole responsibility of the user to determine the suitability of the product for the desired purpose and to adopt any precautions that may be advisable to protect property and individuals against any hazards that may be involved in its handling and application. Our warranty applies within the context of legal regulations and provisions, professional standards in force, and in accordance with the determinations established in our general sales conditions. The detailed information in this document is provided for indicative purposes only. The same applies to any information provided verbally, by telephone, or in writing to any potential or existing customer. **For safety, handling, storage, and disposal information, please consult the respective Material Safety Data Sheet (MSDS).**
